## **DETAILED ACTION**

## Election/Restrictions

- 1. Applicant's election of Group I, claims 1-30 and 74-78, species (1) (claim 6) and (3) (claim 15) in the reply filed on February 2, 2007 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
- 2. After reviewing selected Group I (claims 1-30 and 74-78), the examiner notes that Group I further contains claims directed to the following patentably distinct species:
- (a) the hybridization blocker oligonucleotide comprises only a 3' sequence that is not complementary to the first oligonucleotide moiety (claim 2)
- (b) the hybridization blocker oligonucleotide comprises only a 5' sequence that is not complementary to the first oligonucleotide moiety (claim 3)
- (c) the hybridization blocker oligonucleotide comprises both a 3' sequence and a 5' sequence that are not complementary to the first oligonucleotide moiety (claim 4)

The species are independent or distinct because these species are directed to different hybridization blocker oligonucleotides.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, generic claims are claims 1, 5-30, and 74-78.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
